

## ASSEMBLY INFORMATION

---

- We will arrive a little over an hour before the start of the assembly. We will set up & warm up during this time. Please let us know if we need to come to the office or go right to the assembly site.
- We will need access to an electrical outlet for our sound system. We will provide 200 ft. of extension cords. If the outlet is farther away than 200 ft. please have extra cords available.
- Please e-mail us the address of where the assembly will take place.
- We will use only one basketball hoop and need the use of a whole basketball court. If you have numerous hoops we can decide which will work best the day of the show. The hoop should have cloth nets and be between 8'-10' from the rim to the ground. We can still perform on a smaller hoop, please inform us if this is the case.
- We try to bring the kids as close to the action as possible! Once we set up our equipment we will draw out some chalk lines or explain where the student body can sit.
- We will need someone to do an introduction at the beginning of the assembly. Feel free to make any school announcements pertaining to the

assembly, and then our intro can go something like this... **WE ARE GLAD TO HAVE THE TNT DUNK SQUAD HERE TODAY. THEY TRAVEL ALL OVER THE WORLD. THEY PERFORM FOR THE CLIPPERS & THE LAKERS. GIVE A BIG WELCOME TO THE TNT DUNK SQUAD !!**

- If your assembly has to be cancelled for any reason we will set up a makeup date at your earliest convenience.
- If you have any questions the day of the show feel free to call these cell phone numbers.

**Keith (310) 456-4410    Brian (818) 642-6349**

**We are looking forward to a high flying rockin' assembly. Feel free to get back to us if you have any other questions.    ~ The TNT Dunk Squad**
