Pasadena, CA. – the TNT Dunk Squad performs hundreds of shows a year but their favorite shows are at local schools for the kids. This is an opportunity for them to show off their tremendous athletic talent by performing spectacular team oriented slam dunks off mini trampolines, all set to high-energy music. Whether it is monster 360's or an under the leg dunk their high flying trampoline aerial stunts combined with a positive motivational message always leaves their audiences in awe with a smile on their face.

The company was co founded by Keith Cousino and Brian Smith with the main goal to impact our youth in a powerful and positive way. Both acrobats toured with a company called the Daredevils performing thousands of shows at halftimes of NBA and college basketball games throughout the world. Now retired from the Daredevils, Brian owns a gymnastics facility and Keith works as a model and commercial actor . Wanting to stay involved in the acro dunk world, they formed the TNT Dunk Squad in 1999. They performed shows for corporate events along with our local teams the Lakers and

Clippers . By chance they were asked to do an assembly for a local school and the principal came up after and said  
“ That was the best assembly we have ever had ” Since that day they have become well known for their unique brand of entertainment along with delivering a positive message throughout schools in the area. “ It’s great for kids to see a role model right in front of them performing and then hear inspiring words of encouragement” said Cousino.

Along with school shows The TNT Dunk Squad perform at other special events. Some of last years highlights were going to London with Disney’s High School Musical. Performing at the Lakers vs. Celtics Christmas day game. Coordinating and performing in the ABC reality program True Beauty. Entertaining for our World Champion L.A. Lakers at the Staples Center. “These events are great but it all comes back to doing the shows for the kids and seeing their faces light up. We are committed to having an impact on children’s lives one flip at a time” said Smith.
